

15-16 F150 Raptor Style Front Bumper

KIT INCLUDES:
Front bumper

TOOLS NEEDED FOR INSTALLATION

Ratchet
18mm Deep Socket

PRIOR TO INSTALLATION

- Read these instructions and make sure kit is complete before beginning the installation.
- **NOTE:** The bumper is a very heavy product and it is recommended to have 2 people available for installation.

Removal of OEM Bumper

Step 1. Removal of OEM Bumper

- Remove four 18mm nuts from frame where bumper attaches (two bolts per side). **Fig 1 & Fig 2**

Installation of New Bumper

Step 1. Installation of New Bumper

- Place new bumper up to frame to line up bolts with OEM mounting location. **Fig 3**
- Using OEM 18mm nuts from removal process mount new bumper to frame and tighten all bolts.
- This completes the installation process.
