

# Smoked LED Grille Lights

## 2010-2019 Raptor

### Contents:

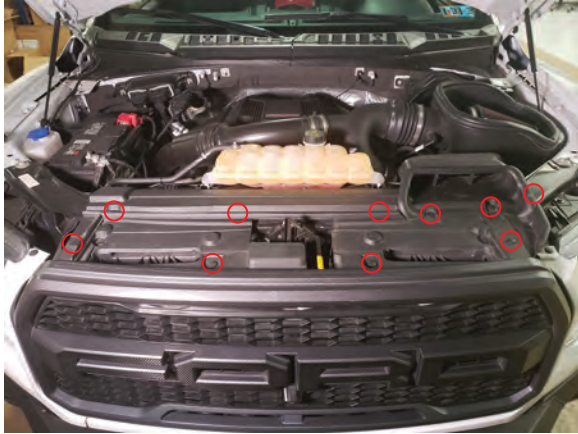

(2) Smoked LED Fender Lights

### Tools Required:

-Trim Panel Removal Tool

-8mm & 10mm Sockets

-Ratchet

### Step 1

Using a trim panel removal tool, remove the (10) plastic push clips securing the radiator cover to the grille. Remove the radiator cover.

### Step 2

Remove the (1) plastic push clip located on top of the headlight bezel. Carefully pry the headlight bezel away from the vehicle.

### Step 3

Locate, and remove the (4) 10mm bolts across the top of the grille.

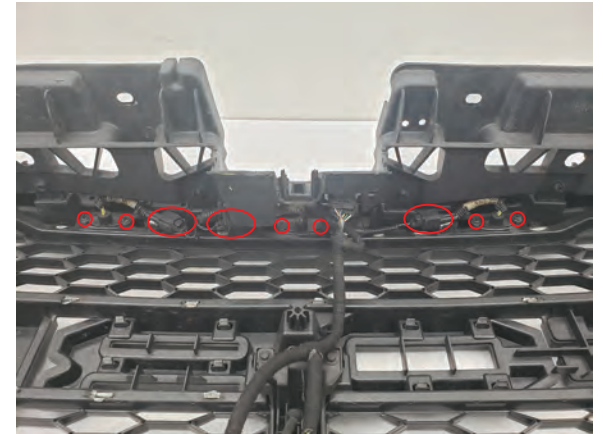

### Step 4

Unplug the grille connections.

### Step 5

Locate, and remove the 8mm bolt on each side on the lower portion of the grille. Carefully pull the grille away from the vehicle.

### Step 6

Locate the (3) factory grille lights. Unplug each of the (3) grille light wiring harnesses from the lights. Then carefully remove the (2) 8mm nuts securing each light to the grille.

**Step 7**

Install the new lights by reversing Steps 1-6. Installation is now complete.
