

# Smoked LED Fender Lights - Rear 2010-2019 Raptor

**Contents:**  
(2) Smoked LED Fender Lights

**Tools Required:**  
-Trim Panel Removal Tool  
-8mm Socket and Ratchet

**Step 1**  
Begin by opening the tailgate. Locate, and remove the (2) 8mm screws securing the taillight to the vehicle. Gently pull the taillight away from the vehicle.

**Step 2**  
Locate and unplug the factory fender light harness from the main taillight harness.

**Step 3**  
Carefully pull out the fender light from the rubber grommet.

**Step 4**  
Remove the rubber grommet from the body of the fender, and carefully pull the light and harness from the fender.

**Step 5**  
Carefully remove the factory rubber grommet from the factory light and harness. Transfer the rubber grommet to the new light.

**Step 6**  
Install the new light by reversing Steps 1-4. Repeat steps for opposite side. Installation is now complete.
