

15-17 F-150 Fuel Door Installation Guide

T543304

Contents:

(1) Fuel Door

Tools Required:

- Flathead Screwdriver

//Step 1:

Open fuel door. Using a flathead screwdriver, pry up lightly on the tab shown above. While prying up, slide the fuel door away from the vehicle.

//Step 2:

Slide the new fuel door into the fuel door arm tracks opposite as removal. Slide it until it clicks into place.

//Step 3:

Once clicked into place, close door and installation is complete.
