06/15/2016

Notes to the Technician/Installer:

E&G is proud to present this package to you and reminds you that for technical information, contact technical assistance at 410-381-4900. Do not attempt the installation of any E&G product without first reading the detailed instructions. **E&G will not warrant damaged parts or the vehicle due to altered installation procedures.**

E&G Warranty Information:

E&G Corporation, LLC. warrants its parts and products to be free from defects in material, workmanship or finish for Thirty-Six (36) months from the date of shipment by E&G. This warranty is limited to the repair or replacement, at E&G's option, of the defective part or product. Full E&G warranty information is available online @ www.egclassics.com. Just click on the product warranty icon.

For E&G Product Returns:

Please contact the authorized E&G Dealer where you purchased our product from in regards to any workmanship or warranty claims. All items returned to E&G must have a return authorization number issued by us for inspection or a defective product and or warranty issue. All merchandise sent back to E&G without proper paperwork or authorization will be rejected and returned.

1. Remove the twelve factory push pins from the radiator support panel cover and remove the cover for factory grille mounting hardware access.

2. Remove the four upper 10mm bolts retaining the factory grille to the core support.

3. Lift up on the factory grille and pull the grille forward to release the top of the grille from the core support.

4. Use a long, flat blade screwdriver or pry bar to release the lower clips retaining the bottom of the factory grille.

Place the factory grille face up onto a clean, well padded work area for the following grille installation.

5. Align the grilles into place, making sure that they are perfectly centered. Use wide masking tape at the edges to hold the grilles in proper alignment (see arrows), then turn the grille assembly face down for mounting hardware installation.

6. Install the large black plastic washers and 3/16" speed nuts over the protruding studs and tighten until the grille sections are tight against the factory grille.

7. Reinstall the grille assembly by reversing **Steps 1-4**. Remove the masking tape and clean the grille to finish the installation.
