

2004-08 Ford F150

all models except Harley

Grille Instructions

1. Cut center of grille out leaving the "edge" between grille shell and center as shown.
2. Take new grille, remove brackets from back making sure to keep track of the location of each bracket, and lay over grille edge.
3. From back of grille, take each bracket and install in the same location the bracket came off from and just lightly tighten.
4. Now from front of grille make sure grille is centered and tighten rear brackets.
